

I recently read this that you are "now considering making changes to the way FM radio is heard in your community. Advocates of a new broadcast service known as Low Power FM (LPFM) are proposing to expand this service in a way that would allow the new LPFM stations to take priority over current FM translator service."

I would like to speak out about this atrocity - why is it that every time something decent comes on radio or TV, it is taken off? Well I am sick of it, as well as my entire family and co-workers. We all listen to K-Love radio station here in KY everyday - can't get enough of it. You're crossing the boundaries telling the american citizens what they should listen to or see, we as christians have a right as any body else in the country to be heard and I think it's an outrage to limit or put limits excluded the options of what would be available.

I sincerely hope that you make the right decision or you may be faced with many many people that take action against this right to be heard.
